**SUBJECT: MIRACELL MODEL MODULAR WASTEWATER TREATMENT SYSTEMS FOR RWANDA**

We ordered 3 MIRACELL Wastewater Treatment Systems from MIRANDA. One of the systems were procured for a cross border market in 2018 which had a capacity of 40 m<sup>3</sup>/day. The other two were for a hospital and an administration building in 2019 for two different locations with capacities of 7.2 m<sup>3</sup>/day and 10 m<sup>3</sup>/day influent wastewater. The effluent water from the systems can be discharged or used for secondary purposes such as irrigation.

The systems are delivered on time and MIRANDA sent their installation team, who also arrived on time. Installation and commissioning works were carried out professionally and entire system check performed by doing electrical, mechanical and leakage tests.

With dedicated efforts of MIRANDA team, wastewater of our facility is treated problem free without noise and odor. We can also operate the system easily.

We hereby thank the team and MIRANDA for their efforts and good quality of the products provided.

Best Regards

**Michael Kabutura**
